Opportunity to use a borrower's positive cash flow to potentially impact the Loan Product Advisor[®] (LPASM) risk assessment

Loan Product Advisor's borrower cash flow assessment uses a borrower's account (asset) data to identify certain patterns in the transaction history. You can submit an asset verification report and LPA will assess the inflows and outflows present in the account data and changes in account balances month-over-month. When positive cash flow is identified, it may positively impact the credit risk assessment.

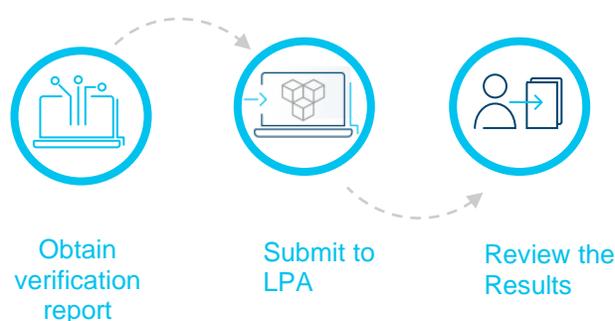

Benefits

- Opportunity for more Accepts for qualified borrowers with positive cash flow
- You can leverage the same verification report to identify rent payment history, and for Freddie Mac's asset and income modeler (AIM) offerings

How it Works

It's easy!

You obtain an **asset verification report*** with the borrower's linked accounts (e.g., checking, savings, investment accounts). Simply **submit** the loan to LPA with the report unique **identifier**. LPA will **assess** the account data. When positive cash flow is identified, it may positively impact the risk assessment. Review the Feedback Certificate for specific **messages**.

*If an asset verification report was not obtained, LPA will also provide messaging when the transaction may benefit by ordering the asset verification report and resubmit to LPA.

Did you know?

The borrower's cash flow assessment does **not** negatively impact the credit risk assessment and will not affect the debt payment-to-income ratio or related documentation requirements.

The following chart provides the requirements that must be met for LPA to consider a borrower's positive cash flow in the credit assessment. Refer to the *Freddie Mac Single-Family Seller/Servicer Guide* (Guide) Section [5201.1\(f\)](#).

Topics	Requirements
Borrower Eligibility	At least one borrower must have a useable credit score , as determined by LPA.
Eligible Financial Accounts	Checking, savings, investment accounts with at least a 12 month history. To take advantage of this assessment capability obtain asset reports on accounts used for funds to close, direct deposits, savings and investments.
Verification Report	The verification report must be obtained by a designated service provider*, refer to the Appendix . You must: <ul style="list-style-type: none"> ✓ Confirm that each depository account is owned by the borrower. ✓ Confirm that the age of the verification report meets the requirements of Section 5102.4. ✓ Ensure the most current version of the verification report is used by LPA. If you obtain an updated report, you must resubmit the loan to LPA. ✓ Maintain the verification report in the loan file for transactions where the Feedback Certificate includes a feedback message that the borrower cash flow positively impacted LPA's credit assessment. <p>*A lender may use a verification report (Freddie Mac financial institution verification report) produced by Freddie Mac using the approved financial institution's data transmitted to LPA through an application programming interface(API). You must first obtain Freddie Mac's approval.</p> <p>Note: Your asset verification report will display your requested 30-, 60-, 90-day history, as applicable. LPA will analyze additional account data, as applicable, behind the scenes.</p>
Loan Product Advisor	Submit: <ul style="list-style-type: none"> ▪ Unique report identifier (e.g., Report ID, Reference Number, Portfolio ID) from the verification report). <p>Refer to the Feedback Messages, for a list of the applicable borrower cash flow feedback messages.</p>

Best Practice: Encourage your borrower to link as many bank accounts as they can. The more complete the picture of the borrower's cash flow, the more precise our assessment.

You can leverage the same verification report to:

Did you know?

- ✓ Identify rent payment history to be considered in LPA's credit assessment (first-time homebuyers)
- ✓ Assess sufficiency of assets and asset representation and warranty relief
- ✓ Assess income using direct deposit data and assess for income representation and warranty relief
- ✓ Meet the 10-day Pre-Closing Verification (PCV)

How to Get Started

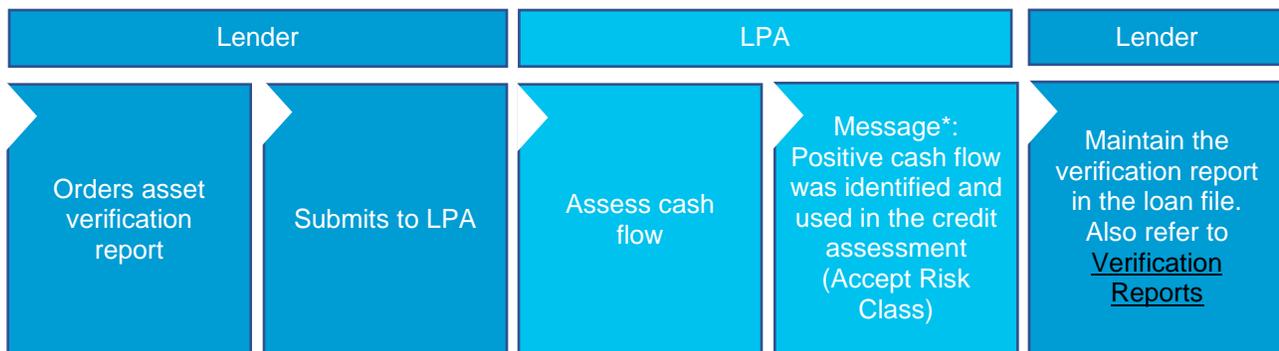

Steps for LPA to include borrower cash flow in the credit assessment

- 1 You must order an asset report from a designated service provider, or provide the account data through an API for approved financial institutions. Refer to the [Appendix](#).
- 2 Obtain the borrower's authorization to receive their asset transaction information from the service provider and share that information with LPA.
- 3 Order the verification report and reconcile the report for any inconsistencies.
- 4 Complete loan data entry in your loan origination system.
- 5 Provide LPA the verification report unique identifier (e.g., Report ID, Reference Number, Portfolio ID), submit to LPA and review the Results.

Reviewing the Results

The following scenarios will guide you on how to interpret the results and take advantage of using positive borrower cash flow in the LPA credit assessment.

Scenario 1: An asset verification report was obtained by the lender and a positive borrower cash flow was successfully identified, resulting in the Risk Class changing from a Caution to an Accept.

Message Code	*Feedback Message
FCL0426	Positive cash flow was successfully identified from the Asset Report, resulting in a Risk Class of Accept. Retain the verification of asset(s) report(s) in the loan file.
