

DJUSD In-Person Instruction Health and Safety and Informed Consent

Dear DJUSD Families,

In order to protect the health and safety of the DJUSD community, all students and parents/guardians must receive education and training on the District's COVID-19 safety practices. For general information and resources, please visit the [DJUSD Return to Campus website](#). Family education resources can be accessed directly [here](#).

Please review the following health and safety content with your student. Students participating in person will also receive education and training when they come to campus.

- **Family Return to Campus Training video:**

- Please watch the following family training video with your student(s):
 - **Preschool - Grade 6:** [Elementary Family Return to Campus Training](#)
 - **Grade 7 - Grade 12:** [Secondary Family Return to Campus Training](#)

- **Checking for Signs and Symptoms of Illness**

- Everyone who is sick is expected to stay home.
- Use the [Daily Illness Screening Checklist](#) to check your student for wellness every day before they come on campus. Ask about the symptoms included on the checklist and take your child's temperature. **If you identify any positive risk factors or symptoms of illness for your student, or any household member, your student must stay home from school.**
- Report any illness, positive, or probable cases of COVID-19, or exposure to the District's COVID-19 reporting line at covid19reporting@djUSD.net or 530-235-6137. Be sure to leave your full name, phone number, and school site.
- To update your student's health information and/or emergency contacts, please visit the [DJUSD Parent Portal](#). If you don't remember your login information, click on "Need Your Login Information?". Under "Re-Enrollment", click on "Edit This Student Information" to add or update health information or emergency contact information.
- If your student becomes ill while at school, you will be contacted and asked to take your child home immediately. Ensure that a parent, guardian, or emergency contact is accessible and readily available to pick your child up from school in case of illness.

- **Face Coverings:**

- All students (Preschool through Grade 12) and staff are required to wear a face covering while on campus. Face coverings:
 - Must be worn during exercise, even with heavy exertion
 - May be removed for eating, but physical distancing must be maintained
 - Must cover the nose, mouth, and chin and may not have a vent or valve, which is typically a raised plastic piece on the side or front of the mask

- Must contain a minimum of two (2) layers
 - Should be cleaned after one (1) day of use
- Contact your school nurse if your student is unable to wear a face covering due to a health condition.
- Contact your teacher, site principal or school nurse if your student needs a face covering.
- **Handwashing**
 - Students are expected to wash and sanitize hands frequently.
 - Students and staff should wash their hands before coming on campus and when they arrive home from school.
 - At a minimum, students and staff will wash hands with soap and water before eating, after using the restroom, and when hands are visibly dirty when on campus.
 - Students will also be required to wash or sanitize hands when entering and exiting a classroom and when directed by school staff.
- **Physical Distancing and Limiting Sharing**
 - Students and staff will be expected to maintain physical distancing from others. The Centers for Disease Control and Prevention (CDC) and the California Department of Public Health (CDPH) recently updated physical distancing guidance between masked students in the classroom. Student chairs may be placed a minimum of three (3) feet apart as long as mask-wearing is strictly enforced. When students are not masked (e.g., while eating or drinking), they should stay six (6) feet apart. Staff will continue to stay six (6) feet from students and other adults as possible.
 - Certain areas of campus may be marked to help remind students to stay physically distanced.
 - To reduce sharing, students will be provided with their own supplies as needed (e.g., paper, pencils, pens, manipulatives, etc.).
 - Students should bring a reusable water bottle that can be filled at designated campus hydration stations.
 - Students should bring their personal electronic device (e.g., laptop or Chromebook) with them to school, as needed, and avoid bringing extra supplies or devices to campus.

Please complete the Informed Consent below and return to your school site. Contact your site administrator if you have any questions regarding the students' return to campus for in-person learning. Contact your school nurse if you have any questions about health and safety practices. We thank you for all that you are doing to keep our community safe and healthy.

Regards,

Laura Juanitas
Associate Superintendent Student Support Services

DJUSD In-Person Instruction Health and Safety Attestation and Informed Consent

Name of Child: _____ DOB: _____

School Site: _____ Grade: _____

I, _____, attest that:

Parent/Guardian Name

- ☐ I have watched the Elementary and/or Secondary Family Return to Campus Training video listed above and have talked to my student about the importance of health and safety protocols.
- ☐ I will immediately pick my student up from school if they become ill or are unable to comply with health and safety protocols.
- ☐ I also understand that if my child cannot adhere to health and safety protocols, they may be removed from the in-person instruction and returned to Distance Learning.
- ☐ I will immediately alert the school administrator and report to the covid19reporting@djUSD.net email if my child, or anyone in my household, develops symptoms or tests positive for COVID-19 or has been in contact with someone who has tested positive for COVID-19.
- ☐ I acknowledge and understand that although the District will follow guidance from health officials regarding the safety and health of students during the COVID-19 pandemic, the District cannot completely eliminate the risk of exposure at its schools.
