Full Service Retirement Business - In July 2021, the Company entered into an agreement with Great-West & Annuity Insurance Company to sell the Company's Full Service Retirement business. Beginning with the third quarter of 2021, the Company is reporting the assets and liabilities of the Full Service Retirement business as "held-for-sale" and has transferred the results of this business to Divested and Run-off Businesses within Corporate and Other operations. All prior period amounts have been restated to conform to the current period presentation. The transaction is expected to close by the end of the first quarter of 2022, subject to the receipt of regulatory approvals and the satisfaction of customary closing conditions.

Individual Annuities Business - In September 2021, the Company entered into a definitive agreement to sell a portion of its in-force traditional variable annuity block of business to Fortitude Group Holdings LLC. Beginning with the third quarter of 2021, the Company is reporting the assets and liabilities of this block of business as "held-for-sale" with results continuing to be reported within the Individual Annuities segment. The transaction is expected to close in the first half of 2022, subject to the receipt of regulatory approvals and the satisfaction of customary closing conditions.

(1) Revenues exclude realized investment gains, net of losses and related charges and adjustments; investment gains, net of losses, on assets supporting experience-rated contractholder liabilities, revenues of Divested and Run-off Businesses, and changes in the fair value of contingent consideration associated with the Assurance IQ acquisition, and include revenues representing equity in earnings of operating joint ventures other than those classified as Divested and Run-off Businesses. Benefits and expenses exclude charges related to realized investment gains, net of losses; change in experience-rated contractholder liabilities due to asset value changes, benefits and expenses of Divested and Run-off Businesses, and certain components of the Assurance IQ acquisition which are recognized as compensation expense over the requisite service periods and include charges for income attributable to noncontrolling interests. Revenues and Benefits and expenses exclude market experience updates. See pages 36 and 37 for reconciliation.

(2) Represents adjustments not included in the above reconciling items. Also includes certain components of consideration for business acquisitions, which are recognized as compensation expense over the requisite service periods, as well as changes in the fair value of the associated contingent consideration.

(1) On an amortized cost basis, net of allowance, as of September 30, 2021, includes \$1,372 million (fair value, \$1,663 million) and \$180 million (fair value, \$191 million) of public and private fixed maturities, respectively, classified as “1” highest quality and \$92 million (fair value, \$102 million) and \$0 million (fair value, \$0 million) of public and private fixed maturities, respectively, classified as “2” high quality securities based on the NAIC designations. On an amortized cost basis, net of allowance, as of December 31, 2020, includes \$1,621 million (fair value, \$1,963 million) and \$211 million (fair value, \$225 million) of public and private fixed maturities, respectively, classified as “1” highest quality and \$98 million (fair value, \$110 million) and \$0 million (fair value, \$0 million) of public and private fixed maturities, respectively, classified as “2” high quality securities based on the NAIC designations.

(2) Other invested assets consist of investments in limited partnerships and limited liability companies (“LPs/LLCs”), investment real estate held through direct ownership, derivative instruments and other miscellaneous investments.

(3) Excludes (i) assets of our investment management operations, including assets managed for third parties, (ii) derivative operations and (iii) those assets classified as “Separate account assets” on our balance sheet. Also excludes “Assets held-for-sale” of \$42,443 million as of September 30, 2021.

(4) Includes invested assets of our investment management and derivative operations. Excludes assets of our investment management operations that are managed for third parties and those assets classified as “Separate account assets” on our balance sheet.

(5) Excludes fixed maturity securities classified as trading.

(6) Reflects equivalent ratings for investments of the international operations. Includes, as of September 30, 2021 and December 31, 2020, 597 securities with amortized cost of \$4,035 million (fair value \$4,068 million) and 102 securities with amortized cost of \$356 million (fair value \$382 million), respectively, that have been categorized based on expected NAIC designations pending receipt of SVO ratings.

Less: investment income related to adjusted operating income reconciling items		(1,243)			(1,599)	
Total		10,543	2,641		9,597	(2,430)

(1) Excludes Closed Block division.

(2) Excludes commercial loans and assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders, assets of our investment management operations, including assets that are managed for third parties and assets classified as "Separate account assets" on our balance sheet.

(3) Includes fixed maturity securities classified as available-for-sale and held-to-maturity and excludes fixed maturity securities classified as trading, which are included in "Other investments." Realized gains (losses) for "Other investments" includes changes in fair value of product-related and other derivatives and embedded derivatives.

(4) Includes invested income of commercial loans, assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders and investment management operations.

(5) Yields are based on net investment income as reported under U.S. GAAP and as such do not include certain interest-related items, such as settlements of duration management swaps which are included in realized investment gains and losses and included in adjusted operating income. For interim periods, yields are annualized. The denominator in the yield percentage is based on quarterly average carrying values for all asset types except for fixed maturities which are based on amortized cost, net of allowance. The denominator in the yield percentage includes "Assets held-for-sale" as of September 30, 2021. Amounts for fixed maturities, short-term investments and cash equivalents are also netted for securities lending activity (i.e., income netted for rebate expenses and asset values netted for security lending liabilities). A yield is not presented for other investments as it is not considered a meaningful measure of investment performance. Yields exclude investment income and assets related to commercial loans and assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders and investment income and assets related to other investments.

Yields exclude investment income and assets related to commercial loans and assets supporting experience-rated contractholder liabilities where the investment results generally accrue to contractholders and investment income and assets related to other investments.

KEY DEFINITIONS AND FORMULAS

1. Adjusted operating income before income taxes:

Adjusted operating income is a non-GAAP measure used by the Company to evaluate segment performance and to allocate resources. Adjusted operating income excludes “Realized investment gains (losses), net,” as adjusted, and related charges and adjustments. A significant element of realized investment gains and losses are impairments and credit-related and interest rate-related gains and losses. Impairments and losses from sales of credit-impaired securities, the timing of which depends largely on market credit cycles, can vary considerably across periods. The timing of other sales that would result in gains or losses, such as interest rate-related gains or losses, is largely subject to our discretion and influenced by market opportunities as well as our tax and capital profile.

Realized investment gains (losses) within certain businesses for which such gains (losses) are a principal source of earnings, and those associated with terminating hedges of foreign currency earnings and current period yield adjustments are included in adjusted operating income. Adjusted operating income generally excludes realized investment gains and losses from products that contain embedded derivatives, and from associated derivative portfolios that are part of an asset-liability management program related to the risk of those products. Adjusted operating income also excludes gains and losses from changes in value of certain assets and liabilities relating to foreign currency exchange movements that have been economically hedged or considered part of our capital funding strategies for our international subsidiaries, as well as gains and losses on certain investments that are designated as trading. Adjusted operating income also excludes investment gains and losses on assets supporting experience-rated contractholder liabilities and changes in experience-rated contractholder liabilities due to asset value changes, because these recorded changes in asset and liability values are expected to ultimately accrue to contractholders. Additionally, adjusted operating income excludes the changes in fair value of equity securities that are recorded in net income.

Adjusted Operating Income excludes market experience updates, reflecting the immediate impacts in current period results from changes in current market conditions on estimates of profitability, which we believe enhances the understanding of underlying performance trends. Adjusted operating income also excludes the results of Divested and Run-off Businesses, which are not relevant to our ongoing operations and discontinued operations and earnings attributable to noncontrolling interests, each of which is presented as a separate component of net income under GAAP. Additionally, adjusted operating income excludes other items, such as certain components of the consideration for the Assurance IQ acquisition, which are recognized as compensation expense over the requisite service periods, as well as changes in the fair value of contingent consideration. Earnings attributable to noncontrolling interests is presented as a separate component of net income under GAAP and excluded from adjusted operating income.

Adjusted operating income does not equate to “Net income” as determined in accordance with U.S. GAAP. Adjusted operating income is not a substitute for income determined in accordance with U.S. GAAP, and our definition of adjusted operating income may differ from that used by other companies. The items above are important to an understanding of our overall results of operations. However, we believe that the presentation of adjusted operating income as we measure it for management purposes enhances the understanding of our results of operations by highlighting the results from ongoing operations and the underlying profitability of our businesses. Trends in the underlying profitability of our businesses can be more clearly identified without the fluctuating effects of the items described above.

2. After-tax adjusted operating income:

Adjusted operating income before taxes, as defined above, less the income tax effect applicable to adjusted operating income before taxes. The tax effect associated with pre-tax adjusted operating income is based on applicable IRS and foreign tax regulations inclusive of pertinent adjustments.

3. Annualized New Business Premiums:

Premiums from new sales that are expected to be collected over a one year period. Group insurance annualized new business premiums exclude new premiums resulting from rate changes on existing policies, from additional coverage issued under our Servicemembers' Group Life Insurance contract, and from excess premiums on group universal life insurance that build cash value but do not purchase face amounts. Group insurance annualized new business premiums include premiums from the takeover of claim liabilities. Excess (unscheduled) and single premium business for the company's domestic individual life and international operations are included in annualized new business premiums based on a 10% credit. Amounts ascribed to Gibraltar Life Consultants include production by captive agents associated with consolidated joint venture of Gibraltar Life and Other operations.

4. Assets Under Administration:

Fair market value of assets in client accounts and mortgage servicing assets, which are reported on an unpaid principal balance basis, that are not included in Assets Under Management. Prudential does not receive a management fee on these assets, but may receive a fee for executing trades, custody or record keeping services, or servicing the mortgage loans. In addition, fair market value of assets for which Prudential provides non-discretionary investment advice and receives a fee.

5. Assets Under Management:

Fair market value of assets directly managed by Prudential or joint ventures of which Prudential has at least 50% ownership, and assets invested in investment options included in the Company's products that are managed by third party sub-advised managers at the discretion of Prudential. This includes externally managed modified coinsurance for both Hartford and Allstate. It also includes the fair value of derivatives used in various portfolio management strategies related to the portfolio's invested assets, regardless of the hedge accounting designation, but excludes direct hedges of product liabilities and expenses.

6. Book value per share of Common Stock:

Equity attributed to Prudential Financial, Inc. divided by the number of common shares outstanding at end of period, on a diluted basis. Book value per share excluding Accumulated Other Comprehensive Income (Loss) (“AOCI”) and adjusted to remove amount included for remeasurement of foreign currency exchange rate is a non-GAAP measure. These items are excluded in order to highlight the book value attributable to our core business operations. This non-GAAP measure augments the understanding of our financial position by providing a measure of net worth that is primarily attributable to our business operations, separate from the portion that is affected by capital and currency market conditions, and by isolating the accounting impact associated with insurance liabilities that are generally not marked to market along with the supporting investments that are marked to market through AOCI under GAAP. However, book value per share excluding AOCI and adjusted to remove the amount included for foreign currency exchange rate remeasurement is not a substitute for book value per share including AOCI determined in accordance with GAAP, and the adjustments made to derive the measure are important to an understanding of our overall financial position.

KEY DEFINITIONS AND FORMULAS

7. Borrowings - Capital Debt:

Debt utilized to meet the capital requirements of our business.

8. Borrowings - Operating Debt:

Debt utilized for business funding to meet specific purposes, which may include activities associated with our PGIM and Assurance IQ businesses. Operating debt also consists of debt issued to finance specific portfolios of investment assets, the proceeds from which will service the debt. Specifically, this includes assets supporting reserve requirements under Regulation XXX and Guideline AXXX, as well as funding for institutional and insurance company portfolio cash flow timing differences.

9. Divested and Run-off Businesses:

Businesses that have been or will be sold or exited, including businesses that have been placed in wind down status that do not qualify for “discontinued operations” accounting treatment under U.S. GAAP.

10. Earned Premiums:

The portion of a premium, net of any amount ceded, that represents coverage already provided or that belongs to the insurer based on the part of the policy period that has passed.

11. General Account:

Includes assets of the insurance companies for which the Company bears the investment risk. These generally include assets supporting "Future Policy Benefits" and "Policyholders' Account Balances". General account assets also include assets of the parent company, Prudential Financial, Inc. and excludes assets recognized for statutory purposes that are specifically allocated to a separate account.

12. Gibraltar Life:

Includes results from consolidated joint venture operation of Gibraltar Life and Other operations.

13. Gibraltar Life Consultants:

Captive insurance agents for Gibraltar Life.

14. Group Insurance Benefits Ratios:

Ratio of policyholder benefits to earned premiums, policy charges and fee income.

15. Group Life Insurance and Group Disability Insurance Administrative Operating Expense Ratios:

Ratio of administrative operating expenses (excluding commissions) to gross premiums, and net policy charges and fee income.

16. Individual Annuity Account Values in General Account and Separate Account:

Amounts represent the breakdown of invested customer funds in annuities either written or reinsured by the Company.

17. Individual Annuities - Net Amounts at Risk:

Living Benefit Features - For guarantees of benefits that are payable at annuitization, the net amount at risk is generally defined as the present value of the minimum guaranteed annuity payments available to the contractholder determined in accordance with the terms of the contract in excess of the current account balance. For guarantees of benefits that are payable at withdrawal, the net amount at risk is generally defined as the present value of the minimum guaranteed withdrawal payments available to the contractholder determined in accordance with the terms of the contract in excess of the current account balance. For guarantees of accumulation balances, the net amount at risk is generally defined as the guaranteed minimum accumulation balance minus the current account balance.

Death Benefit Features - Net amount at risk is generally defined as the current guaranteed minimum death benefit in excess of the current account balance at the balance sheet date.

18. Insurance and Annuity Benefits:

Total death benefits, annuity benefits, disability benefits, other policy benefits, and losses paid or incurred, under insurance and annuity contracts, plus the change in reserves for future policy benefits, losses and loss adjustment expenses.

19. International Life Planners:

Captive insurance Advisors in our Life Planner operations.

KEY DEFINITIONS AND FORMULAS

20. Non-recourse and Limited-recourse Debt:

Limited and non-recourse borrowing is where the debt holder is only entitled to collect against the assets pledged to the debt as collateral or has very limited rights to collect against other assets.

21. Other Related Revenues:

Other related revenues include incentive fees, transaction fees, seed and co-investment results, and commercial mortgage revenues.

22. PGIM Asset Under Management Classifications:

Public Equity - Represents stock ownership interest in a corporation or partnership (excluding hedge funds) or real estate investment trust.

Public Fixed Income - Represents debt instruments that pay fixed interest and usually have a maturity (excluding mortgages).

Real Estate - Includes direct real estate equity and real estate mortgages.

Private Credit and Other Alternatives - Includes private credit, private equity, hedge funds and other alternative strategies.

Multi-Asset - Includes funds or products that invest in more than one asset class, balancing equity and fixed income funds and target date funds.

23. Policy Persistency - Group Insurance:

Percentage of the premiums in force at the end of the prior year that are still in force at the end of the period (excluding Servicemembers' Group Life Insurance and Prudential Employee Benefit Plan).

24. Policy Persistency - International Businesses:

13 month persistency represents the average percentage of face amount of policies that are still in force at their 13th policy month. 25 month persistency represents the average percentage of face amount of policies that are still in force at their 25th policy month.

25. Prudential Advisors:

Captive financial professionals in our insurance operations in the United States.

26. Prudential Advisor Productivity:

Commissions on new sales of all products by Prudential Advisors financial professionals under contract for the entire period, divided by the number of those financial professionals. Excludes commissions on new sales by financial professionals hired or departed during the period. For interim reporting periods, the productivity measures are annualized.

27. Prudential Financial, Inc. Equity:

Amount of capital assigned to each of the Company's segments for purposes of measuring segment adjusted operating income before income taxes, established at a level which management considers necessary to support the segment's risks. Represents all of Prudential Financial, Inc. equity that is not attributable to noncontrolling interests.

28. Separate Accounts:

Assets of our insurance companies allocated under certain policies and contracts that are segregated from the general account and other separate accounts. The policyholder or contractholder predominantly bears the risk of investments held in a separate account.

29. Wrap-Fee Products:

Investment products generating asset-based fees in which the funds of the customer are generally invested in other investment products such as mutual funds.
