

## R. Troy Peters, P.E., Ph.D.

Professor and Extension Irrigation Engineer (80% Extension, 20% Research)  
24106 N. Bunn Rd., Prosser, WA 99350  
e-mail: troy\_peters@wsu.edu. Phone: (509) 786-9247

### *Education*

**Ph.D. Irrigation Engineering.** Utah State University. May 2003. CGPA: 3.9/4.0  
51 total graded course semester credits.

**B.S. Manufacturing Engineering.** Brigham Young University. April 1997. CGPA: 3.7/4.0  
International Emphasis, and Korean Language Minor. 179 total graded semester credits.

### *Licenses/Certifications*

Licensed Professional Agricultural Engineer (PE). Washington State Certification # 44143

Certified Agricultural Irrigation Specialist (CAIS). Administered through the Irrigation Association (IA).

### *Experience Highlights*

Professor/Extension Irrigation Specialist. Mar. 2006 – Present  
Washington State University, Irrigated Agriculture Research and Extension Center, Prosser, WA

Agricultural Engineer/Post-doctoral Research Scientist. July 2003 – Feb. 2006  
USDA – ARS, Conservation and Production Research Laboratory, Bushland, TX

Research Assistant. Aug. 2000 – June 2003  
Utah State University, Logan, UT

Manufacturing Systems Engineer. May 1997 – June 2000  
Motorola, Semiconductor Products Sector, MOS13, Austin, TX

Teaching Assistant. Nov 1996 – Apr 1997  
Brigham Young University, Provo, UT

Design Engineer. Provo, Utah (Sep 1996 – Apr 1997)

Shop Mathematics Teacher, Springville, Utah (Nov 1996 – Apr 1997)

Korean Language Teacher. Aug 1994 – Apr 1996  
Brigham Young University, Provo, UT

## ***Honors and Awards***

- Elected as a Washington State University Faculty Senator
- 2021 ASABE Standards Development Award for “Field Test Procedure for Determining Irrigation Water Distribution Uniformity of Center Pivot and Lateral Move Systems”
- ASCE EWRI Journal of Irrigation and Drainage Engineering 2017 Honorable mention Paper Award for “Estimating Actual Transpiration of Apple Trees Based on Infrared Thermometry”.
- My student (Hossein Sadeghi) was awarded the Soil Science Society of America Graduate Student Award.
- Winner of the 2012 ASABE Mobile App Challenge
- 2009 Mentor of the Year Nominee
- Tau Beta Phi National Engineering Honors Society
- Phi Kappa Phi National Honors Society. Invited at both BYU and USU.
- Golden Key National Honors Society Nominee
- College of Engineering Dean’s list at Utah State University
- President (and organizer) of the Biological and Irrigation Engineering Graduate Student Club
- Biological and Irrigation Engineering Department Graduate Student Senator at Utah State University
- Licensed Ham Radio Operator
- Eagle Scout; the highest obtainable rank of the Boy Scouts of America
- High school student body presidency, president of the Technology Club, and National Honors Society
- Wyoming state old-time fiddle champion, junior division (1984)

## ***Current Professional Societies/Memberships***

- American Society of Agricultural and Biological Engineers (ASABE). 2002 to Present
- United States Committee on Irrigation and Drainage (USCID). Apr. 2006 to Present.
- Past Societies/Memberships: Environmental and Water Resources Institute of the American Society of Civil Engineers

## ***Languages***

English – native language  
Korean – speak and write effectively  
Limited Spanish

## ***Computer Languages***

Visual Basic, VBA, C, C++, PHP, SQL, MySQL, SCILAB, Javascript, HTML, Java, Arduino programming, PLC Ladder-Logic, CR-Basic, and Campbell Scientific table-based programming.

## ***Publications***

\*Publications with an asterisk are either authored by me, or were completed by a student under my direct supervision.

### Websites

The following websites and web-based tools represent a huge time investment in their creation and development but have been extremely successful at reaching a large number of people at a very low cost.

**Peters, R.T.**, S.E. Hill, and G. Hoogenboom. (2013) <http://weather.wsu.edu/ism>. Irrigation Scheduler Mobile: A user-friendly online irrigation scheduling tool that is optimized for use on a smart phone, but works well on any desktop web browser. It is integrated with an agricultural weather network for quick population of crop water use estimates, and default crop coefficients for simplified irrigation scheduling.

\***Peters, R.T.** (2007). Washington Irrigation Extension Education. <http://irrigation.wsu.edu>. Extensive website with many pages, calculators, publications, and tools.

This site contains 58 different calculators, and hundreds of pages of information as well as many links and fact sheets for download. It has a mobile phone version of the most popular calculators so that it is more accessible for mobile farmers. It uses thousands of lines of html, javascript, and PHP code. It interacts with databases using MySQL and makes extensive use of cascading style sheets (CSS). It receives an average of about 35-40,000 page views per year with about 14,000 of these from unique visitors. This website is having a large impact.

### **Organized Educational Workshops and Meetings.**

LEPA/LESA Workshops and Field Days. Held in Mabton and North of Pasco. Two separate field days.

Irrigation System Uniformity and Efficiency. In conjunction with WSDA and NRCS. **Eight different** workshops all around the state.

Irrigation Management Training Seminar for Vegetable Producers. Half day training presented as the education piece of the Pacific Northwest Vegetable Growers Association Annual Meeting.

Irrigated Agriculture Research and Extension Update Meetings; Organized and hosted in Prosser. This meeting was supported by the Dean and is now an annual meeting.

Bio-fuel and Forage Field Day. Independently advertised and put on with the help of Steve Fransen, and Hal Collins.

Biofuel feedstock research and development tour. Included as a part of the Pacific Northwest Section of the American Society of Agricultural and Biological Engineers Meeting.

## ***Invited Presentations***

<b><u>Date</u></b>	<b><u>Title, Duration, Sponsor, Contacts, and Location.</u></b>
<b>12/5/2023</b>	Best Management Practices for Mint Distillation. Washington Mint Convention. 20 min. Yakima, WA. 67 participants.
<b>11/1/2023</b>	A New Paradigm for ET-Based Irrigation Scheduling. 20 min. 18 participants. St. Louis, MO.
<b>9/19/2023</b>	Best Management Practices for Mint Distillation. Mint Industry Research Council Scientific Affairs Committee. 23 participants. 30 min. Memphis, TN
<b>9/10/2023</b>	Irrigation of Grapevines. 3 hours. 34 participants. Grape Camp. Prosser, WA
<b>7/21/2023</b>	The Uses and Limitations of Soil Moisture Sensors. Smart Vineyard Field Day. 30 min. 46 participants. Prosser, WA
<b>6/6/2023</b>	Best Management Practices for Mint Distillation. Washington Mint Annual Field Day. 10 min. 53 participants. Prosser, WA
<b>5/14/2023</b>	Evaluating Irrigation Technologies: The Biggest Return on Investment. 8 participants. Presentation to the Egyptian Minister of Agriculture. New Cairo, Egypt
<b>5/14/2023</b>	The Irrigated Agriculture Research and Extension Center in Prosser, WA. Faculty of Agriculture Ain Shams University. Cairo, Egypt
<b>5/13/2023</b>	Smart Irrigation Systems and Technologies: The Big Picture: Biggest Return on Investment. 2 hours. Nubaria Research Station. 8 participants. Nobarea, Egypt
<b>5/8/2023</b>	Smart Irrigation Systems and Technologies: The Big Picture: Biggest Return on Investment. 2 hours. Wadi El-Natrun Research Station. 13 participants. Wadi El-Natrun, Egypt
<b>2/15/2023</b>	Methods of Irrigation Water Management. BSYSE 541 Guest Lecture. 1 hour. 16 students. Prosser, WA
<b>1/31/2023</b>	LEPA, LESA, and MESA irrigation efficiency comparisons. 30 min. Oklahoma Master Irrigator Training Program. 34 participants. Online presentation.
<b>1/26/2023</b>	The interaction between irrigation and nitrogen fertilization in native spearmint. 20 min. 53 participants. Charleston, SC
<b>1/24/2023</b>	Irrigation efficiency for Mint growth and financial optimization of mint distillation. Mint Industry Research Council Scientific Affairs Committee. 30 min. Charleston, South Carolina.
<b>1/18/2023</b>	Matching Irrigation Efficiency with Tree Fruit Needs. 30 min. 34 participants. North Central Washington Tree Fruit Days. Online webinar.
<b>12/6/2022</b>	Irrigation and Nitrogen Trial Results on Spearmint. 20 min. 83 participants. Washington Mint Convention. Kennewick, WA
<b>12/1/2022</b>	The Effects of Irrigation and Nitrogen Levels on Spearmint Hay and Oil Yields. 30 min. 42 participants. Hermiston Farm Fair Seminars. Hermiston, OR
<b>11/17/2022</b>	LEPA/LESA and MDI on Center Pivots. 20 min. 9 participants. Irrigation designers meeting. Pasco, WA
<b>11/14/2022</b>	Principles of Scheduling Irrigation & Soil Moisture Monitoring. 40 min. 115 participants. Alfalfa Conference. San Diego, CA
<b>10/28/2022</b>	US History and Cultural Influences. 20 min. LAWREE Monthly Social. Zoom
<b>10/7/2022</b>	Evapotranspiration (ET) Estimation Methods and their Limitations. 1 hr. 59 participants. Washington State Department of Ecology Bioannual Meeting. Wenatchee, WA.
<b>9/15/2022</b>	Evapotranspiration (ET) Estimation Methods and their Limitations. 1 hr. 27

- participants. Eastern OR OpenET Workshop. Hermiston, OR.
- 9/14/2022** Evapotranspiration (ET) Estimation Methods and their Limitations. 1 hr. 27 participants. OR Dept of water resources, NRCS, and OSU personnel. Aurora, OR.
- 9/11/2022** Irrigation of grapes. 2 hours. 38 participants. V&E Certificate program field day. Prosser, WA
- 7/28/2022** Chemigation of Cranberries. 1.25 hours. 37 participants. Washington Cranberry Field Day. Aberdeen, WA.
- 7/26/2022** Irrigation Research at the Irrigated Agriculture Research and Extension Center. 30 min. 48 participants. Eisenhower High School. Prosser, WA.
- 7/21/2022** Soil Moisture Monitoring and Record Keeping. 1 hr. 19 participants. Irrigation Water Management Workshop. Madras, OR.
- 6/24/2022** Irrigation Technologies and Research at WSU. 30 minutes. 11 participants. CBC Students. Prosser, WA
- 6/22/2022** Irrigation Education Opportunities for AgTech Teachers. 30 minutes. 4 participants. High School Ag Teacher Education Event. Prosser, WA.
- 6/7/2022** LEPA/LESA on Mint. 10 minutes. 29 participants. WA Mint Field Day. Prosser, WA.
- 6/1/2022** Dairy Irrigation Water Management. 30 minutes. 23 participants. NW Washington dairy producers. Lynden, WA
- 4/13/2022** Upcoming irrigation technologies. 1 hr. 20 participants. Presentation to High School Students. IAREC, Prosser, WA.
- 3/12/2022** Irrigating Your Home Landscape. 1 hr. 36 participants. Spokane co. Virtual Gardening Symposium. Gardening Zoom
- 3/8/2022** Irrigating Your Home Landscape. 2 hours. 27 participants. Benton-Franklin Master Gardener Volunteer Training.
- 3/6/2022** Irrigation for Small Farm Operators. 2 hours. Deer Park, WA.
- 3/4/2022** Common Irrigation Problems Found in Orchards. Wilbur Ellis Agribusiness Irrigation Training Meeting. 14 participants. 15 minutes. Zoom
- 2/17/2022** Irrigation of Tree Fruit. 12 participants. 1 hr. Hort 433. Zoom
- 2/9/2022** Irrigation for Fruit Quality and Efficiency. 30 min. 32 participants. Omak, WA. Okanogan Horticultural Association Annual Meeting.
- 2/4/2022** Soil Moisture Sensors for Weather Networks. 20 min. 29 Participants. Zoom. Washington Weather School.
- 1/28/2022** Sensors and Tools for Irrigation Water Management. 1 hour. 32 participants. Stevenson, WA. Pratum Coop Crop Advisor Training
- 1/28/2022** Water Available for Food Production in Whitman, Co. 5 min. 125 participants. Zoom. Palouse-Clearwater Food Summit.
- 1/20/2022** Water Management for Dairy Producers. 30 min. 26 participants. Lynden, WA. Dairy Nutrient Management Training.
- 1/13/2022** Determining Optimal Irrigation and Fertility Programs in Mint. 30 min. 137 participants. Lincoln City, OR. Oregon Mint Meetings
- 12/7/2021** Center pivots control panels should vary cycle time instead of run time to control pivot speed. 20 min. 62 participants. San Diego, CA. ASABE Meeting
- 11/30/2021** Irrigation set times and soil moisture sensors. 20 min. 23 participants. Cashmere, WA. Pear Irrigation Session.
- 10/22/2021** Deficit Irrigation. 1 hr. 19 participants. Zoom. Artificial Intelligence in Agriculture Seminar.

### ***Organized Outreach Demonstration Projects and Workshops***

- **Large Scale LEPA Demonstration Project.** Worked with University of Idaho and Bonneville Power Administration to demonstrate low energy precision application (LEPA) technology on center pivots in WA, ID, OR, and NV. This was a multi-year project throughout the above states. Sections of these pivots were converted to LEPA to show the growers that it is a viable technology and to demonstrate the water and pumping power savings, as well as the decreased losses to wind drift and improved yields when water supplies are limited. Thus far we have converted a section of 14 different pivots in Washington, 6 in Idaho, 4 in Nevada, and 7 in Oregon. This is a multi-year, ongoing project and is having a huge impact especially in areas that are water short like central Oregon, Nevada, northern Washington, northern California, and the Snake River plain of Idaho. The pivot dealers have reported that they have received requests to convert 60 pivots to LESA or LEPA in Idaho, 52 in Oregon and Northern California, and 12 in Washington state. Pivot sprinkler companies like Nelson Irrigation and Senninger have changed their advertising and outreach to focus on LEPA/LESA as they see the huge demand for that in the Pacific Northwest into the future. Based on our research results it is reasonable to save 52 acre-ft of water (17 million gallons), 20,000 kwh of pumping energy, and \$1,870 in

pumping costs per pivot. Based on the pivots converted thus far that results in *2.5 Megawatts of electricity, 6,400 acre-ft of water, and \$230,000 in pumping energy costs conserved per year in the Pacific Northwest.* These savings are recurring and based on our feedback thus far we expect the LEPA/LESA movement to expand in the future.

- **LEPA Field Days.** Organized, advertised, and held two different field days to demonstrate LEPA and LESA irrigation methods at grower's fields. This was done in both 2014 *and* in 2015. One was held near Mabton, and the other was held north of Pasco. These were well attended by center pivot dealers and sprinkler manufacturers as well as by growers.
- **Surge Irrigation Demonstration Project.** Worked with the Yakima Nation to purchase, install, and set-up surge irrigation on a growers field near Harrah, WA. Held a field day to demonstrate this technology and how it . 3 hrs. 12 attendees.
- **Drip Irrigation Demonstration Project.** Purchased and installed a drip irrigation system on vegetables in Western Washington. This included soil moisture sensors. Held a field day that was attended by Western Washington growers to demonstrate this technology. 1.25 hrs. 182 attendees.
- **Evaluation of Simple Irrigation Scheduling Aids.** Purchased, installed and evaluated atmometers (ET-gauges) over two seasons. This was compiled into an extension publication. Also did careful irrigation scheduling using Kansched in a local grower's pasture over two seasons to evaluate the effectiveness and user friendliness of these tools. The results were presented in seminars during regularly scheduled commodity commission meetings.
- **Irrigation System Evaluations.** Worked with the Yakima Conservation District to do surface, center pivot, and hand-line sprinkler irrigation systems. These were done free of charge and the results were provided back to the growers. 6 grower fields were evaluated comprising about 260 acres.
- **Big Guns vs. Booms.** Obtained funding for, and did efficiency and uniformity evaluations of big-gun and boom irrigation systems in Western Washington. Comparisons were done and the economics of converting due to energy savings alone were calculated. The results were presented during a regularly scheduled potato commission and a local grower meeting. 45 min. 118 total attendees.
- **Washington Consumptive Use and Irrigation Water Requirements.** Worked with the Washington State Natural Resource Conservation Service office as well as the Washington State Department of Ecology to re-work the Washington consumptive use and irrigation water requirement estimates. We are also re-working and compiling update crop coefficients for the state. Ecology has requested that we don't publish the results until the crop coefficient work is done.
- **Regional Evaluation of a Web-Based Irrigation Advisory Service.** Worked with 15 different growers throughout the state to implement and evaluate a web-based irrigation advisory service over two years. The results were presented during regularly scheduled meetings, and provided back to the developers.
- **Irrigated Switchgrass, Giant Reed, and Canola for Biofuels.** Helped organize a field day where we demonstrated the advantages, disadvantages, challenges, and potential yields and returns of irrigation switchgrass, giant reed, and canola for biofuel production. Approximately 1.5 hours. 23 attendees.

- **Irrigation Efficiency and Uniformity Workshop for Hop Growers on Drip Irrigation.** Worked with the Washington State Department of Agriculture and the National Resource Conservation Service to put on a whole-day education and hands-on demonstration workshop of why it is important, and how to do a uniformity evaluation on drip irrigation in hop fields. Held in Prosser. 7 hours. 23 attendees.
- **Irrigation Efficiency and Uniformity Workshop for Potato Growers on Center Pivots.** Worked with the Washington State Department of Agriculture and the National Resource Conservation Service to put on a whole-day education and hands-on demonstration for potato growers of why it is important, and how to do a uniformity evaluation on center pivots. *Six different workshops* on this same subject were held in Othello (twice), Mattawa, Pasco (twice), and Quincy. 7 hours each. 101 total attendees.
- **Irrigation Efficiency and Uniformity Workshop for Cranberry Growers on Solid Set.** Worked with the Washington State Department of Agriculture and the National Resource Conservation Service to put on a whole-day education and hands-on demonstration for cranberry growers of why it is important, and how to do a uniformity evaluation on solid set sprinkler irrigation systems. This was done in *two different locations* (separate workshops), Grayland, and Long Beach. 6 hours each. 48 total attendees.

## *Service*

### **National Service**

#### *American Society of Agricultural and Biological Engineers (ASABE)*

- District 5 (PNW) Representative (An elected position).
- Chair of the ASABE Heermann Sprinkler Irrigation Award Committee for 3 years.
- Vice Chair of the Irrigation Steering Committee (SW-24)
- Chair of the Irrigation Steering Committee (SW-24)... Twice.
- Vice Chair of the Sprinkler Irrigation Committee (SW-241) - two different times
- Chair of the Sprinkler Irrigation Committee (SW-241) - two different times
- Chair of the Sprinkler Irrigation Awards Committee – two different times
- Active member of the Irrigation management Committee (SW-244)
- Active member of the Microirrigation Committee (SW-245)
- ASABE soil and water steering committee (SW-01)
- Vice Chair of the PNW ASABE/CSAE (helped organize the 2009 meetings and tours and hosted them at Prosser)
- Soil and Water outstanding paper review committee.

#### *National Irrigation Association*

- Organizing Committee for the Decennial National Irrigation Symposium

#### *Bonneville Power Administration Regional Technical Forum Irrigation Subcommittee.*

#### *WSITIE*

- Annually attend the Western States Irrigation Technical Information Exchange.  
Hosted in Prosser in 2009.

#### *Multi-State Project/Activities*

- Chair of WDC018 “Meteorological and Climate Data to Support ET-Based Irrigation Scheduling, Water Conservation, and Water Resources Management.” Organized and hosted a meeting at WSU IAREC.
- Chair of WERA 202 “Climate Data Applications in Irrigation Scheduling and Water Conservation.”
- Vice Chair of WERA 202 Member “Climate Data Applications in Irrigation Scheduling and Water Conservation.”
- Participate on the Pacific Northwest Water Quality Team.

### **Service to the State**

R. Troy Peters, P.E., Ph.D.

- Yakima River Basin Groundwater Advisory Committee (GWAC). I attend monthly, highly contentious and politicized meetings. These meetings are followed closely in the news.
- Chair of the Irrigated Agriculture Working Group of the GWAC. I lead monthly meetings full of arguing.
- Washington Water Resources Leadership Team
- USDA-CSREES PNW Regional Water Quality Team
- Research Task Force Gap Analysis for Viticulture and Enology
- Steering committee for the biannual water conference “Water in the Columbia Basin: Sharing a Limited Resource.” Held in Stevenson, WA.
- Appointed by Dan Bernardo and the US Secretary of Interior Sally Jewell to the Yakima River Basin Conservation Advisory Group to represent WSU.

### **Service to the University/College**

#### Faculty Senate

- Senator representing the Biological Systems Engineering Department and the CAHNRS Extension Tenure and Promotion Committee
- Evaluation extension tenure and promotion packets and make recommendations to the Dean. Served for 2 years.

#### Promotion and Tenure Mentoring Committees

- For Kirti Rajagopalan (chair)
- For Jenny Bolivar Medina
- For Michelle Moyer
- For Lav Khot

#### Search Committees

- IAREC Facilities Manager
- Agricultural Weather Network Project Manager
- Agricultural Meteorologist
- Agricultural Weather Network Systems Programmer
- IAREC Finance and Grants Manager

#### Other

- ExTerra Advisory Board Member for undergraduate startup.
- Invited member of an exploratory committee for the combination of Chemical and Biological Engineering department with Biosystems engineering department.
- New Orchard Committee for the orchard outside of Wenatchee.
- Member of the Extension Web Development Team.
- Re-initiated the “Irrigated Agriculture Research and Extension Update Meetings” with Andy McGuire.
- Nominated by Dean Bernardo to represent WSU College of Agriculture Human and Natural Resource Sciences and Agricultural Extension on the Yakima River Basin Conservation Advisory Group (CAG).
- Affiliated faculty member with the Center for Precision and Automated Agricultural Systems (CPAAS)
- Affiliated faculty member with the Viticulture and Enology Center.

### **Service to the Department/Experiment Station**

- BSysE Diversity Equity and Inclusion Committee.
- IAREC Dorm Committee Chair. Responsible for the IAREC dormitory.
- IAREC Irrigation Systems Update Planning and Evaluation Committee.  
Consulted with the station leadership to update the station irrigation system to an on-demand system. Also was instrumental in getting a \$75,000 universal linear irrigation system donated and installed on the Roza farm. This is used for research.
- Graduate Student Admissions Evaluation Committee
- Chair of the IAREC employees fund committee.
- BSysE Department Marketing and Recruitment Committee.
- BSysE Department Development and Scholarships Committee.
- CPAAS and IAREC Graduate Student Club advisor. I hosted a dance in my barn and coordinate activities with the students. I also host game nights and have taken the IAREC graduate students camping twice.

### ***Professional Development***

- *Became a licensed as a professional agricultural engineer (PE).* As my department members understand, this is not a trivial process or accomplishment.
- Became *Certified as an Agricultural Irrigation Specialist (CAIS)* through the Irrigation Association.
- Attended over 50 professional conferences. I focus on attending the ASABE and Irrigation Association conferences and try to stay closely affiliated with those societies.
- Attended the Irrigation Faculty Academy put on by the Irrigation Association.
- Take time out to upgrade my skills and learn new things. For example I purchased books and learned PHP, Javascript and MySQL for web and database programming. I also learned a lot about microelectronics and to use miniature Linux-based computers like the Raspberry Pi. I've prototyped many things in my basement in my free time for use in data collection and irrigation automation.
- Attended a workshop on water law and water rights issues in the Columbia Basin and on the US-Canada water treaty.
- Attended the Irrigation Efficiency Workshop, "Exploring the Future of Agricultural Irrigation." Put on by the Northwest Energy Efficiency Alliance.
- Attended a professional grant writing workshop in Seattle.
- Attended Valve School in Walla Walla, WA. 1.5 days.
- Annually attend and participate in the Western States Irrigation Technical Information Exchange (WSITIE).
- Attended Irrigation Service Seminars put on by LAD Irrigation.
- Annually participate in and am the current chair of WERA 1022 "Climate Data Applications in Irrigation Scheduling and Water Conservation."

R. Troy Peters, P.E., Ph.D.

- I have gained tremendous professional development by carefully listening to farmers and ranchers. I spend time talking with these down-to-earth folks at each seminar or workshop at which I present and have learned a huge amount from them. I hope to be able to continue to learn from these wise and seasoned individuals in the future.
