Introduction to this Guide

This user guide provides information for individuals accessing the Florida Statewide Assessments practice tests and sample test materials. This introduction describes the contents of this user guide and includes a key for identifying icons and elements used.

Guide Sections

Each section and appendix start on a new page, which facilitates printing by section only.

1. [The Signing In to the Practice Test Site](#) section provides information on how to log in and select a practice test or sample test materials.
2. [The Overview of Practice Test and Sample Test Materials Features](#) provides a sample test layout, global and context menus, and the available test tools.
3. [The Item Types on Tests](#) section provides samples of the item types that students may see on practice tests or sample test materials and general guidelines on how to respond to the item types.
4. [The Keyboard Navigation](#) section outlines the keyboard commands for navigating the test and using specific features.

Document Conventions

[Table 1](#) describes the typographical conventions appearing in this user guide.

Table 1. Key Icons and Elements

Icon	Description
	Caution: This symbol accompanies important information regarding a task that may cause minor errors.
	Note: This symbol accompanies helpful information or reminders.
<i>bold italic</i>	Boldface italic indicates a page name.
bold	Boldface indicates an item users click or a drop-down list name.
<i>italic</i>	Italic indicates a field name or a drop-down list selection.

Signing In to the Practice Test Site

Students must use a supported web browser or the secure browser to access the Practice Test site. The supported web browsers for the practice tests and sample test materials are listed on the [Technology Guide](#) page on the Florida Statewide Assessments Portal. Text-to-Speech (TTS) is available only through the secure browser. Students who require this accommodation must access the practice test or sample test materials through the secure browser. Students with the speech-to-text (STT) accommodation must use a test ticket and a session ID to access the practice test or sample test materials and have the STT accommodation assigned in the Test Information Distribution Engine (TIDE).

Using the Secure Browser

1. Ensure that all software applications, including Internet browsers, are closed on the student's computer or device.
2. Launch the Secure Browser on the student's computer or mobile device.
3. Select **Go to the Practice Test Site** to access the Student Practice Test site.
4. Continue to [Step 3](#) in the Using a Web Browser section directly below.

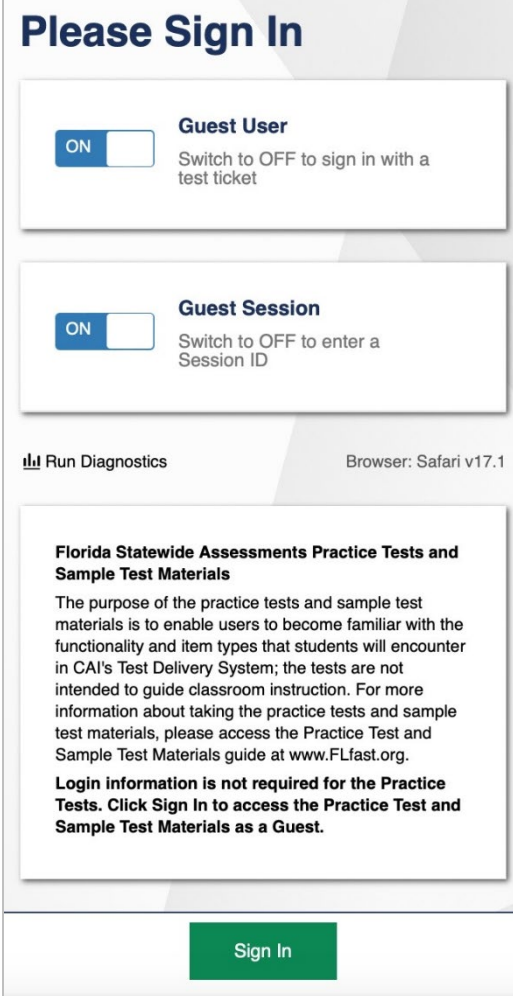

Using a Web Browser

1. Launch a supported web browser on the student's computer or tablet.
2. Navigate to the portal (<https://flfast.org/fast.html>). Select **Students & Families**, then click the **Take a Sample Test for Grades 3–10** card. The student practice test ***Please Sign In*** page will appear.
3. Sign in as a Guest User under a Guest Session. Ensure that Guest User and Guest Session are both switched to ON. Click **Sign In**.

Note: The login process will be different if Guest User and Guest Session are not both switched to ON. This guide is intended for users logging into the Practice Test or Sample Test materials as a Guest User with a Guest Session.

Florida Statewide Assessments Practice Tests and Sample Test Materials

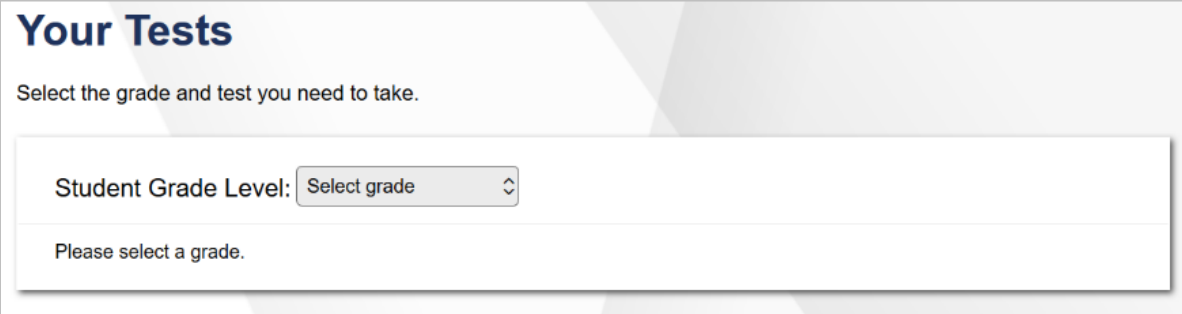

The purpose of the practice tests and sample test materials is to enable users to become familiar with the functionality and item types that students will encounter in CAI's Test Delivery System; the tests are not intended to guide classroom instruction. For more information about taking the practice tests and sample test materials, please access the Practice Test and Sample Test Materials guide at www.FLfast.org.

Login information is not required for the Practice Tests. Click Sign In to access the Practice Test and Sample Test Materials as a Guest.

Select an available practice test or sample item(s) by clicking the text to the right of the arrow. The list of available tests generated will depend on the grade level selected.

Note: If the test or sample items a student wants to take is not displayed, click **Back to Login**. The student will be logged out and must sign in again and select the grade level for the practice test or sample test materials that he or she would like to take. Users signed in under a Guest User profile on the Practice Test site can access end-of-course (EOC) practice tests for all grade levels.

6. The **Choose Settings** page will appear. Select the appropriate accessibility settings and/or accommodations.

Note: The **Choose Settings** page will not appear when signing in to a Practice Session with a ticket or session ID. This page appears only if signing in as a Guest User under a Guest Session.

Overview of Sample Test Materials and Practice Test Features

This section provides an overview of what a test page looks like. Information about available test tools and how to access them is also provided.

Test Layout

[Figure 16](#) shows the primary features and available tools for a FAST ELA Reading test. Tools will differ between subjects and grade levels.

Figure 16. Test Layout Sample

Each test has three major sections:

1. **Banner.** The banner is located at the top of the screen and contains global tools, navigation buttons, the Help button, the System Settings button, and the item summary drop-down list.
2. **Stimulus/Passage.** The stimulus/passage is located on the left side of the screen and displays the test content/stimuli.
3. **Item.** The item is located to the right of the stimulus/passage and contains the question, response area/options, and context menu.

Note: Some tools are only accessible in the context menu for that stimulus/item. For more information, refer to the following section.

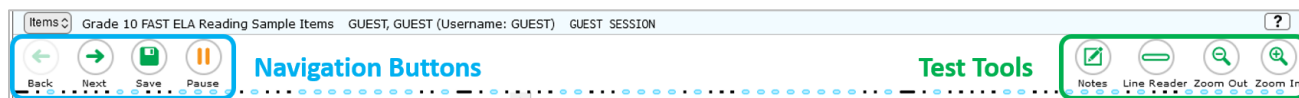

Global and Context Menus

The global and context menus allow students to access on-screen tools. These tools are accessible using a mouse or keyboard shortcuts. For information about keyboard shortcuts, refer to [Keyboard Navigation](#). The System Settings button will be visible for students taking the practice test or sample test materials on the secure browser only.

About the Global Menu

The global menu (located in the banner) contains all the visible tools displayed at the top of the student's test screen. Most universal tools, including the Help [?] button, are in the global menu.

Figure 17. Sample Global Menu

To open a test tool in the global menu, select the button for the tool.

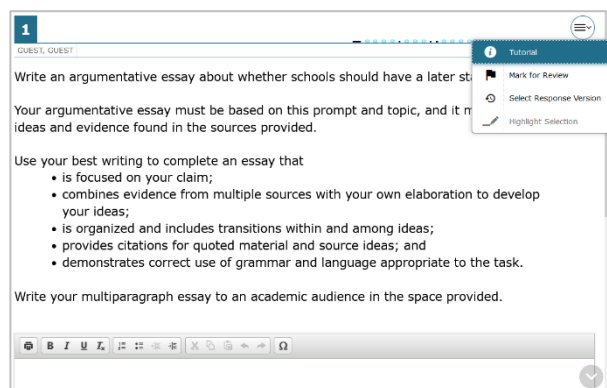

About the Context Menus

Each test question may include several elements, such as the question number and answer options. The context menu for each element (e.g., passage, stimulus, answer options) contains only the tools available for that element.

Figure 18. Sample Context Menu for Passage

Figure 19. Sample Context Menu for Answer Options

Opening the Context Menu for Passages and Questions

Students can access context menus by clicking the Context Menu [≡] button within an element (e.g., passage, stimulus) or by right-clicking within an element (e.g., passage, stimulus, answer options). The context menu will display different tools based on where and how students access it.

Using the Context Menu button to access context menu tools:

1. Click the Context Menu [≡] button located in the upper-right corner of an element (e.g., passage, stimulus).
2. Select a tool from the context menu.

Right-clicking to access context menu tools:

1. To access the context menu use one of the following options:
 - a. If using a two-button mouse, right-click in the question-and-answer area.
 - b. If using a single-button mouse, click in the question-and-answer area while pressing **Ctrl**.
 - c. If using a Chromebook, click in the question-and-answer area while pressing **Alt**.
 - d. If using a tablet, tap the question-and-answer area and then the Context Menu button (this method will select the answer option until a different option is selected).
2. Select a tool from the context menu.

Test Tools

The following test tools are available:

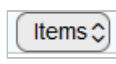

1. **Universal Tools.** Universal tools appear in the banner located at the top of the screen.
2. **Stimulus/Question Tools.** These tools are specific to stimuli and questions and are accessible by clicking the Context Menu [] button of a particular stimulus, question, or answer-option area.
3. **Accommodation Tools.** Accommodation tools are available only for students with related accommodations. For practice tests and sample items, accommodations may be set in TIDE, the TA interface, or by reviewing the student test settings before the student begins the test.

Some tools, such as the calculator, formula sheet, and American Sign Language (ASL) videos, open in separate windows. Students can resize the window using the resizing handle []. Students can also maximize or minimize the window by selecting this button []. When maximized, the window will cover the entire test page except for the navigation bar located at the top of the screen. Students can also drag and move the window to different parts of the test page; however, this feature will not work when the window is maximized.

[Table 2](#) provides a list of available universal tools.

Item Types on Tests

This section contains sample item types that may appear on the practice tests and sample test materials. These item types include: Editing Task Choice, Hot Text, Open Response, Multiple Choice, Multiselect, Evidence-Based Selected Response (EBSR), Graphic Response Item Display (GRID), Equation Editor, Matching/Table, and Copy Interaction. These item types may be combined into a single item with multiple parts called a multi-interaction item. [Table 5](#) provides a complete list of Item Types students may encounter on Florida tests.

But knowing the scientific explanations for these natural light shows doesn't make them any less breathtaking.

- Other editing task items require students to read a short passage with highlighted words or phrases. Each multiple-choice item in the passage set corresponds to one of the highlighted portions of the associated text. Students are asked to answer a question based on the highlighted phrases.

Figure 23. Multiple-Choice Editing Task Item

Answer the following questions based on the underlined sections of the passage.

In the first-ever televised presidential debate, candidate Richard Nixon was famously outmatched by the less experienced but more appealing John F. Kennedy. At least, that's what those watching the debate on television said. However, most people listening to the debate on the radio declared Nixon the winner. What led to this discrepancy? While Nixon possessed years of White House experience, Kennedy had charmed the public with his natural gift of clear communication.

Answer this question based on the underlined section of the passage.

Choose the correct phrase to complete the sentence.

Ⓐ Kennedy charms the public with his natural gift of clear communication.

Ⓔ Kennedy charmed the public with his natural gift of clear communication.

Hot Text Items

Hot Text items require students to click on a response option (Selectable Hot Text) or drag a response option to another location (Drag-and-Drop Hot Text).

Passage 1: from *The Metamorphoses* by Ovid

Juliet's feelings change in a variety of ways in section 14 of Passage 2. Drag the feelings listed below onto the chart, in the order in which Juliet experiences them in this section.

Order	Feeling
First	
Second	
Third	
Fourth	

Feelings: Drag the options into their correct locations in the boxes above.

- uncertainty about how Romeo wants her to act
- embarrassment over what Romeo has heard her say
- hesitance to take Romeo's words at face value
- sincerity about her affection for Romeo

Drag your response to each answer box.

Write an expository essay about the benefits people receive when they push beyond their comfort zones.

Your expository essay must be based on this prompt and topic, and it must incorporate ideas and information found in the sources provided.

Use your best writing to complete an essay that

- is focused on your central idea;
- combines evidence from multiple sources with your own elaboration to develop your ideas;
- is organized and includes transitions within and among ideas;
- provides citations for quoted material and source ideas; and
- demonstrates correct use of grammar and language appropriate to the task.

Write your multiparagraph essay to an academic audience in the space provided.

Click in the text box and type your answer using the keyboard.

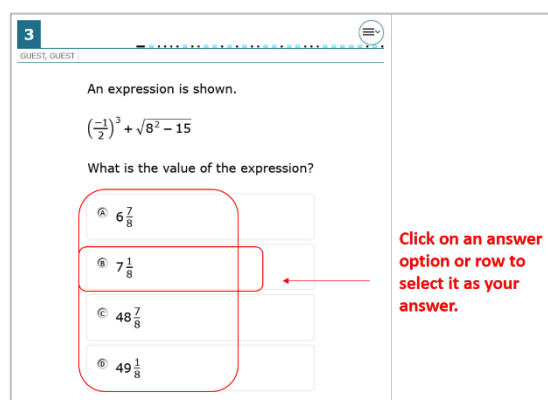

Multiple Choice Items

Multiple choice items require students to select a single answer option.

Note: Students may click anywhere on the answer option or click in the circle that contains A, B, C, or D. The selected answer circle become shaded.

An expression is shown.

$$\left(\frac{-1}{2}\right)^3 + \sqrt{8^2 - 15}$$

What is the value of the expression?

A $6\frac{7}{8}$

B $7\frac{1}{8}$

C $48\frac{7}{8}$

D $49\frac{1}{8}$

Click on an answer option or row to select it as your answer.

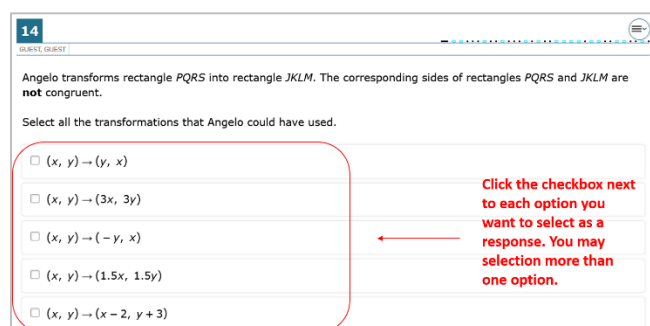

Multiselect Items

Multiselect items allow students to select more than one answer option. These items are different from multiple choice items, which allow students to select only one response.

Note: Some items may ask students to select a specific number of responses.

Angelo transforms rectangle $PQRS$ into rectangle $JKLM$. The corresponding sides of rectangles $PQRS$ and $JKLM$ are not congruent.

Select all the transformations that Angelo could have used.

☐ $(x, y) \rightarrow (y, x)$

☐ $(x, y) \rightarrow (3x, 3y)$

☐ $(x, y) \rightarrow (-y, x)$

☐ $(x, y) \rightarrow (1.5x, 1.5y)$

☐ $(x, y) \rightarrow (x - 2, y + 3)$

Click the checkbox next to each option you want to select as a response. You may select more than one option.

Evidence-Based Selected Response (EBSR)

EBSR items require students to select the correct answers from Part A and Part B. Typically Part A is a multiple choice question, whereas Part B may be multiple choice or multiselect.

Part A often asks students to make an analysis or inference, and Part B requires students to select text to support their answer in Part A.

Figure 30. Evidence-Based Selected Response Item Sample

This question has two parts. First, answer Part A. Then, answer Part B.

Part A

How are Mott's and Blackwell's perspectives similar?

- ☐ Ⓐ Both view women's rights as an ethical issue.
- ☐ Ⓑ Both think intellect can conceal destructive ideas.
- ☐ Ⓒ Both recognize positive signs in women's progress.
- ☐ Ⓓ Both emphasize the importance of self-confidence.

Part B

Select **two** quotations that support the answer in Part A.

- ☐ "... a more elevated position than that which custom for ages has allotted to her." (paragraph 2)
- ☐ "I regretted the more that these sentiments should be presented with such intellectual vigor. . . ." (paragraph 2)
- ☐ "A new generation of women is now upon the stage, improving the increased opportunities. . . ." (paragraph 4)
- ☐ "... the idea was a good one, but that it was impossible to accomplish it." (paragraph 6)
- ☐ "... rather an encouragement than otherwise to a young and active person. . . ." (paragraph 7)
- ☐ "It was to my mind a moral crusade on which I had entered, a course of justice and common sense, . . ." (paragraph 11)

Graphic Response Item Display (GRID) Items with Action Buttons

GRID items may require students to use the point, line, or arrow buttons to create a response. Other GRID items may require students to select words, phrases, or images and use the drag-and-drop feature to place them into an answer area.

Note: The "active" action button is white.

Figure 31. GRID Item Samples

The screenshot shows a coordinate plane with a grid. A line segment is drawn with two red points at its endpoints. Above the grid, there are three action buttons: "Delete" (with a trash icon), "Add Point" (with a point icon), and "Connect Line" (with a line icon). A red arrow points to the "Connect Line" button, with the text "Action buttons." next to it. Another red arrow points to the line segment on the grid, with the text "Points and lines added to graph." next to it. Below the grid, there is a small text box that says "Select two (2) points to connect or press and drag to create and connect points." Below that, there is a red text box that says "Click the arrow button if you do not want to add an extra point or line by accident."

Equation Editor Items

Equation editor items require students to create a response. Responses may be in the form of a number, variable, expression, or equation, as appropriate to the item.

Students click the button for each letter or symbol to enter their response.

About the Navigation Buttons for Equation Editor Items

To navigate and perform actions in the equation editor field, students can select any appropriate navigation button listed in [Table 6](#).

Table 6. Navigation Buttons

Navigation Button	Description
Move Left 	The straight left arrow button allows students to move the cursor before an existing character.
Move Right 	The straight right arrow button allows students to move the cursor after an existing character.
Undo 	The curved left arrow button allows students to undo a previous action.
Redo 	The curved right arrow button allows students to redo an undone action.
Delete 	The delete button allows students to delete characters.

About Special Symbols

Students can select an appropriate button to insert a special symbol into an equation. After entering a number or symbol, they will use the straight arrow buttons to move the cursor between fields.

Table 7. Special Symbols

Special Symbol	Description
Fraction 	This symbol allows students to enter a fraction into the equation editor. The student will select the numerator, then navigate to the denominator and select the value for that field.
Exponent 	This symbol allows students to enter an exponent into the equation editor. The student will enter the base number, then select the exponent button and enter the exponent number.
Subscript 	This symbol allows students to enter a subscript into the equation editor. The student will enter the base number, then select the subscript button and enter the subscript number.
Parentheses 	This symbol allows students to enter parentheses . Once a student selects the symbol, the parentheses will appear in the equation editor. Then the student can select the numbers and symbols that should appear between the open and close parentheses.

Absolute Value 	This symbol allows students to enter an absolute value . Once a student selects the symbol, the lines will appear in the equation editor. Then, the student can select the numbers and symbols that should appear between the lines.
Square Root 	This symbol allows students to enter a square root value. Once a student selects the symbol, the radical sign will appear in the equation editor. Then, the student can enter the number that should appear under the radical sign.
n th Root 	This symbol allows students to enter an nth root value. Once a student selects the symbol, the radical sign will appear in the equation editor. Then, the student can enter the number that should appear under the radical sign. Students can use the straight left arrow to navigate to the n th field and enter the number that should appear there.

Matching/Table Items

Matching items require students to check a box to indicate if the information in the column headers matches the information in each row.

Figure 36. Matching Item Sample

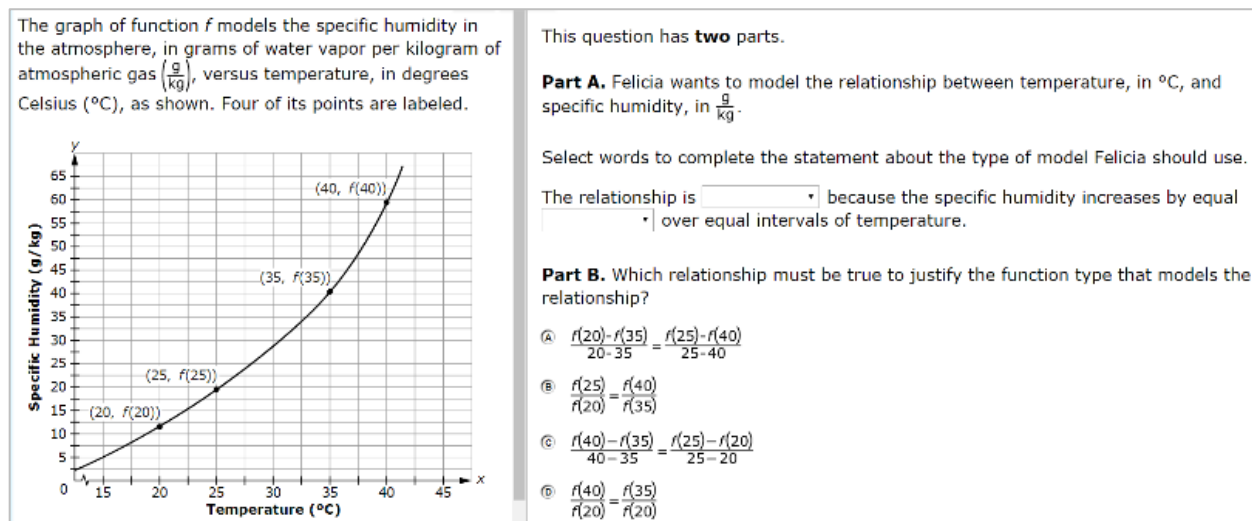

Select the values of x that make each equation or inequality true.

	$x =$ 1	$x =$ 2	$x =$ 3

$2x + 5 \leq$ 9	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Multi-Interaction Items

Multi-interaction items require students to interact with different item types within a single item. The example in [Figure 37](#) represents an item with two parts: Part A is an editing task item, and Part B is multiple-choice.

Figure 37. Multi-Interaction Item Sample

Keyboard Navigation

Any student using a desktop, laptop, or Chromebook can use keyboard commands to navigate between test elements, features, and tools. Keyboard commands are not available for tablets.

Note: Keyboard commands require using the primary keyboard. If the keyboard contains a numeric keypad (often located on the right), do not use those keys.

This section can be printed for students to use as a reference when taking the practice tests or sample test materials (but must not be provided during operational tests).

Keyboard Commands for Test Tools

Students can use keyboard commands to navigate between test elements, features, and tools. [Table 8](#) lists the available keyboard commands.

Keyboard Commands for Test Selection Pages and Messages

Students can use the keyboard commands in [Table 9](#) to select options on the login pages or pop-up messages that appear during the test or sample items. For example, students can use

keyboard commands to navigate between the **Yes** or **No** buttons on an applicable screen and select one of these options.

Table 9. Keyboard Commands on Pages/Pop-up Messages

Keyboard Command	Function
Tab	Move to the next option
Shift + Tab	Move to the previous option
Space or Enter	Select the shaded option

Opening the Global Menu

To access the global menu using keyboard commands, follow these steps:

1. Press the **Ctrl + G** keys to view the global menu. The menu will appear on the screen.
2. Use the **Up** or **Down** arrow keys on the keyboard to move between the options in the menu. Each option will become highlighted as users arrow up or down.
3. Press the **Space** or **Enter** key to select the desired menu option.
4. Press the **Esc** key to close the global menu.

Opening the Context Menus

To access the context menus using keyboard commands, follow these steps:

Navigating to an element:

Press the **Tab** key to navigate between questions, the answer options, and the reading passage.

Opening the context menu for an element:

1. Press the **Ctrl + M** keys on the keyboard. The context menu for that element will appear.
2. Use the **Up** or **Down** arrow keys on the keyboard to move between the options in the menu. Each option will become highlighted as users arrow up or down.
3. Press the **Space** or **Enter** key to select the desired menu option.
4. Press the **Esc** key to close the context menu.

Keyboard Commands for GRID Questions

GRID questions may have up to three main sections:

1. **Answer Space.** The answer space is the grid area where students enter their responses.
2. **Button Row.** Action buttons may appear in a row above the answer space. These buttons may include **Delete**, **Add Point**, **Add Arrow**, **Add Line**, and **Connect Line**.
3. **Object Bank.** The object bank is a panel containing objects that students can move to the answer space.

Figure 38. GRID Item Sections

The diagram illustrates the layout of a GRID question interface. It is divided into three main sections:

- Object Bank:** A vertical panel on the left containing a list of numerical values: 0.1, 0.2, 0.3, 0.4, 0.5, 0.9, 1.6, 2.5, 3.2, and 4.1.
- Button Row:** A horizontal row of buttons located above the answer space. The first button is labeled "Delete" and has a trash can icon.
- Answer Space:** The main area for student input, containing two parts:
 - Part A:** A section titled "Each full row = 1.0 meter" followed by three rows of empty grid boxes for drawing.
 - Part B:** A section with two text prompts: "He will have meters of wire left over." and "OR He needs more meters of wire."

To move between the main sections:

1. Press **Tab** to move clockwise.
2. Press **Shift + Tab** to move counter-clockwise.

To add an object to the answer space:

1. Ensure that the object bank is active and use the arrow keys to move between objects. Note: The active object has a blue background.
2. Press **Space** to add the active object to the answer space.

To use the action buttons:

1. Ensure that the button row is active and use the left and right arrow keys to move between the buttons. Note: The active button is white.
2. Press **Enter** to select a button.
3. Press **Space** to apply the point, arrow, or line to the answer space.

To move objects and graph elements in the answer space:

1. Ensure that the answer space is active and press **Enter** to move between the objects. Note: The active object will display a blue border.
2. Press **Space**.
3. Press an arrow key to move the object or hold the **Shift** key while pressing an arrow key to move the object in smaller increments.

User Support

Questions related to the 2023–2024 Florida Statewide Assessments may be directed to the Florida Help Desk. The Help Desk will be open Monday–Friday (except holidays) from 7:00 a.m. to 8:30 p.m. ET.

If a test administrator encounters an issue during testing, he or she must immediately contact the school assessment coordinator and the Help Desk. In turn, the school assessment coordinators must contact the district assessment coordinator to report any issues.

Florida Help Desk

Toll-Free Phone Support: 1-866-815-7246

Email Support:
FloridaHelpDesk@CambiumAssessment.com

Emails to the Help Desk will be automatically logged and responded to within one working day (typically sooner). Urgent requests will be given priority. When contacting the Help Desk, callers will be asked to provide as much detail as possible about the issue(s) encountered.

If contacting the Help Desk regarding a concern related to computer-based testing, please provide the following information:

- Test administrator name and IT/network contact person and contact information
- Username(s) of affected student(s)
- Device type, operating system, and browser version
- Any error messages and codes that appeared, if applicable
- Information about the network configuration:
 - Secure browser installation (on individual machines or on the network)
 - Wired or wireless Internet network setup

Supported Operating Systems

As a reminder, official technical support is provided for only the systems listed on the [Supported Operating Systems and Devices](#) page on the portal.
