Subject: Re: Quick non policy discussion on Petition Facts

Thanks for the time just now. Bcc'ing Council FYI.

1. The cost to Clyde Hill of an election may vary across the available election dates. Administration is working on getting that information.
2. For the meeting on June 28, there is no expectation or need for information or discussion of potential costs outside the marginal costs of different election dates.
3. Our understanding is that there will be a vote and the City should expect that cost.
4. At this point, the answer to "What will it cost if the ballot measure to change form of government passes" is "We don't know."
5. Given all the other work of the City (including Comp Plan, Title 17, Budget Planning, etc.), there is an appropriately prioritized effort to estimate the cost of the change, starting with the categories of costs. We should keep in mind that actual costs always vary, city to city.
6. The cost that several residents sent in (\$500K) sounds high to City Administrator Dean Rohla and is not a number that came from him or City Staff.

Subject: Quick non policy discussion on Petition Facts

There are lots of comments going around about the petition, many inappropriate and many that appear to include unvalidated conclusions, seemingly nonfactual.

Personally, these comments I am seeing are disturbing, and I think it would be best to be on the same page regarding facts (Council and Staff). Without taking a position on the petition, I think making sure that we have a mutual consensus on the impact of the petition and basic facts would be helpful to our residents.

Dean and I would like a few minutes to discuss this. As Dean is travelling, he is willing to call in; I can meet you at the office and he can join by phone or we can all set up a meeting (teams).

Can you make some time tomorrow or Wednesday?

Steve Friedman
