zoom Apple Devices

zoom

Using Zoom on Apple Devices

You can use the Zoom app from the **App Store** to participate in virtual Library programs.

1. Download the Zoom app from the **App Store**.

2. Open the Zoom app and follow the prompts to create a Zoom account and sign in with your email address.

   • The Library will supply meeting times and schedules on the Library website and social media platforms.

3. Once you have opened the app on your mobile device click the **Join** button in the app.

4. Enter the meeting using the unique **Meeting ID** that the Library has supplied.
   • There will be two options to join with your audio (so we can hear you).
   • The other option will be to join with video (so we can see you).
   • You can also toggle whether you want the audio and video on at any time.

ZOOM on Your Computer

Using Zoom on Your Computer

Open your preferred web browser, such as **Chrome**, **Firefox**, or **Internet Explorer/Edge**.

1. Go to **zoom.us**.

2. In the upper right hand corner, there is an orange button that will prompt you to "**sign-up, it's free.**"
   - Zoom will ask for your date of birth. (this data will not be stored)
   - You can use a work email, a one-time login (SSO), a Gmail account or login through Facebook.
   - The Library will supply meeting times and schedules on the Library website and social media platforms.

3. Once you have opened the app on your mobile device, click the **Join** button in the app.

4. Enter the meeting using the unique **Meeting ID** that the Library has supplied.
   - There will be two options to join with your audio (so we can hear you).
   - The other option will be to join with video (so we can see you).
   - You can also toggle whether you want the audio and video on at any time.
